

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

MESSAGE
OF
THE PRESIDENT
OF
PAKISTAN

I AM PLEASED TO NOTE that Qurtuba University of Science and Information Technology, D. I. Khan, is launching its first quarterly research journal "The Dialogue".

Research is indispensable in order to improve the quality of our education. Staffs and students, especially at the University level, should therefore be encouraged to devote maximum time towards conducting research so that we, too, could extend the frontier of knowledge and catch up with the advanced world.

We need to encourage dialogue, debate and discussion, as it helps us to bring to light diverse aspects of a problem. Healthy debate and discussion supported with logic makes us accommodative of innovative thoughts and ideas. By inculcating in our educational institutions, we can go a long way towards realizing the objective of a balanced, tolerant and vibrant society.

I am hopeful that this journal will contribute to the promotion of research. I wish all associated with it success in their endeavours.

General Pervez Musharraf
President,
The Islamic Republic of Pakistan
